

in safeguarding our freedoms. As a result of their bravery and the bravery of so many other Americans, millions have enlisted in the American Armed Forces.

Veterans such as Messrs. Holman, Sweet, Winger, and Aguero suffered from a complex set of factors that affect all homeless individuals—an extreme shortage of affordable housing, a livable income, limited access to health care, which is exacerbated by a lack of family and social support networks. The Department of Veterans Affairs estimates nearly 196,000 veterans are homeless on any given night and approximately 400,000 veterans experience homelessness during the year. Homeless veterans are in dire need of housing, nutritional meals, physical health care, substance abuse aftercare, and mental health counseling. Messrs. Holman, Sweet, Winger, and Aguero are quintessential examples of the deeply tragic treatment dealt to our Nation's homeless veterans.

In July of 2007, the then Senator Barack Obama stated, "As long as there are veterans or veteran family members searching for shelter on the streets . . . we have failed in our duty to honor our commitment of the brave men and women who chose to serve." I am confident that President Barack Obama's administration will sympathize with the plight of homeless veterans and correct these injustices.

Messrs. Holman, Sweet, Winger, and Aguero inspired our Nation with their dedication and heroic efforts during their respective tenures in the Armed Forces. They will forever be recognized for their honorable services.

Madam Speaker, I ask that my distinguished colleagues join me in recognizing Ernest Holman, John Joseph Sweet, Nathaniel Henry Winger, and Pedro Aguero for their contributions to the United States of America and safeguarding its freedoms.

INTRODUCTION OF THE NANOTECHNOLOGY ADVANCEMENT AND NEW OPPORTUNITIES ACT

HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 3, 2009

Mr. HONDA. Madam Speaker, I rise today to discuss the introduction of the Nanotechnology Advancement and New Opportunities (NANO) Act.

The NANO Act is a comprehensive bill to promote the development and responsible stewardship of nanotechnology in the United States. The legislation draws upon the work of the Blue Ribbon Task Force on Nanotechnology, a panel of California nanotechnology experts with backgrounds in established industry, startup companies, consulting groups, nonprofits, academia, government, medical research, and venture capital that I convened with during 2005.

Nanotechnology has the potential to create entirely new industries and radically transform the basis of competition in other fields, and I am proud of my work with former Science Committee Chairman Sherry Boehlert on the Nanotechnology Research and Development Act of 2003 to foster research in this area.

But one of the things I have heard from experts in the field is that while the United States

is a leader in nanotechnology research, our foreign competitors are focusing more resources and effort on the commercialization of those research results than we are.

In its report *Thinking Big About Thinking Small*, which can be found on my website, the Blue Ribbon Task Force on Nanotechnology made a series of recommendations for ways that the nation can promote the development and commercialization of nanotechnology. The NANO Act includes a number of these recommendations.

In addition, the bill addresses concerns that have been raised about whether the federal government is doing enough to address potential health and safety risks associated with nanotechnology. The NANO Act requires the development of a nanotechnology research strategy that establishes research priorities for the federal government and industry that will ensure the development and responsible stewardship of nanotechnology. This strategy will help to resolve the uncertainty that is one of the major obstacles to the commercialization of nanotechnology—uncertainty about what the risks might be and uncertainty about how the Federal government might regulate nanotechnology in the future.

The NANO Act also includes a number of provisions to create partnerships, raise awareness, and implement strategic policies to resolve obstacles and promote nanotechnology. It will: create a public-private investment partnership to address the nanotechnology commercialization gap; establish a tax credit for investment in nanotechnology firms; authorize a grant program to support the establishment and development of nanotechnology incubators; establish a Nanoscale Science and Engineering Center for "nano-CAD" tools; establish grant programs for nanotechnology research to address specific challenges in the areas of energy, environment, homeland security, and health; establish a tax credit for nanotechnology education and training program expenses; establish a grant program to support the development of curriculum materials for interdisciplinary nanotechnology courses at higher education institutions; direct NSF to establish a program to encourage manufacturing companies to enter into partnerships with occupational training centers for the development of training to support nanotechnology manufacturing; and call for the development of a strategy for increasing interaction on nanotechnology interests between DOE national labs and the informal science education community.

I look forward to working with Science and Technology Committee Chairman GORDON to incorporate these provisions as his committee works to reauthorize the Nation's nanotechnology research and development program.

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 3, 2009

Mr. COBLE. Madam Speaker, while the Super Bowl may be over, we cannot close the books on this football season without mentioning a high school in my district that truly defines the word super. On behalf of the citi-

This adds to the winning history at Thomasville High, which will place an 8th championship trophy in its collection.

This year's championship, which was won at Carter-Finley Stadium in Raleigh, North Carolina, meant that the Bulldogs, who were led by Head Coach Allen Brown, completed an undefeated 16–0 season. The Bulldogs are accustomed to winning; Thomasville has won 4 of the last 5 State championships in their division.

While there were many strong efforts, the championship win was a team effort led by seniors Chris Brooks, D.J. McLendon, Brad Wilkes, Dajuan Ingram, Brandon Moss, Heath Stroud, Martez Wilson, Vince Sanders, Alex Parham, David Coard, Desmond Hare, Robert Benjamin, Darius Baxter, Thomas McLendon, and Roberto Duhart, juniors De'arius Dow, Jonathan Hinson-Brady, Malcolm Ivory, Brandon Lucas, Ralph Woods, C.J. HON. BRUCE L. BRALEY

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 3, 2009

Mr. BRALEY of Iowa. Madam Speaker, I rise today to recognize the Deputy Adjutant General of the Iowa Army National Guard, Brigadier General Mark Zirkelbach, and to express gratitude for his many years of extraordinary service and leadership. General Zirkelbach is retiring after almost four decades of service with the National Guard. He enlisted in the Iowa Army National Guard in 1970, and has served as the Deputy Adjutant General of the Iowa Army Guard since August 2001. He's also served as an incredible resource for me and my staff. It's been my privilege to work with General Zirkelbach on issues of importance to the Iowa National Guard, including ensuring that soldiers who served in Iraq received the education benefits they deserved, and working

to ensure that they receive the respite leave benefits that they are owed from the Pentagon. I thank General Zirkelbach for his invaluable service to the National Guard, the state of Iowa, and the United States, and wish him the best of luck in retirement.

ACTION IN COMMUNITY THROUGH SERVICE

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 3, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize Action in Community Through Service (ACTS) as an exceptional community organization, setting a high standard of service for individuals and organizations in Prince William County.

Established on November 1, 1969, ACTS is guided by the mission to alleviate hunger, homelessness, and domestic violence, and help people achieve self-support in the Prince William area. A small group of dedicated volunteers and clergymen founded ACTS in response to the need for coordinated community action. ACTS now serves over 45,000 people a year. The organization's growth is a testament to the effectiveness of its programs and ability of its staff and volunteers.

ACTS opened the area's first food bank and first dedicated homeless shelter. In 2008, two new facilities opened to accommodate the success of ACTS programs. The Eastern Prince William Safe House provides refuge for victims of domestic violence, and the new Family Services Center offers job counseling and life skills classes to women, children and families struggling with the hardships of homelessness. These facilities will help to restore hope and opportunity to those whom otherwise would endure pain and isolation.

ACTS continually receives top marks for program efficiency and delivers results that genuinely change lives. Citizens hoping to improve their community and the lives of their neighbors have a capable partner in ACTS.

Madam Speaker, I ask my esteemed colleagues to join me in expressing our gratitude for this organization's accomplishments and their steadfast commitment to charity.

A TRIBUTE TO DR. E.B. TURNER

HON. MIKE MCINTYRE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 3, 2009

Mr. MCINTYRE. Madam Speaker, I rise today to pay tribute to a giant among giants, a friend of all citizens from all walks of life, and a man whose hand was always extended to those who wanted to reach for their dreams—Dr. E.B. Turner of Lumberton, Robeson County, NC.

Dr. Turner, who passed away October 5, 2008, was an inspirational leader, dedicated public servant, and renowned pastor for generations of Robesonians. Sixty years earlier in 1948, Dr. Turner, who had just finished divinity school at Shaw University, made the trip south down I-95 to Lumberton to become pastor at First Baptist Church in South Lumberton. Never planning to make Lumberton his home or become involved in public service, Turner was challenged by the opportunity to make a difference. And through wisdom, perseverance, and drive, he truly did. From housing to infrastructure to economic development to education, Dr. Turner made a lasting impact on the future and quality of life for hundreds of thousands of citizens.

In addition to his public contributions, Dr. Turner faithfully served the First Baptist Church for 57 years as Pastor. Through his love of God and his willingness to share the
